Alberta Regulation 193/2006

Agricultural Operation Practices Act

**AGRICULTURAL OPERATIONS, PART 2 MATTERS
AMENDMENT REGULATION**

Filed: August 9, 2006

For information only: Made by the Lieutenant Governor in Council (O.C. 363/2006) on August 9, 2006 pursuant to section 44 of the Agricultural Operation Practices Act.

1 The *Agricultural Operations, Part 2 Matters Regulation (AR 257/2001)* is amended by this Regulation.

2 Section 1(1) is amended

(a) by adding the following after clause (a):

(a.1) “ancillary structure” means any other building or structure as described in the definition of a confined

feeding operation in the Act but does not include a manure storage facility or a manure collection area;

(b) by repealing clauses (c) and (d) and substituting the following:

- (c) “construction”, with respect to a structure, confined feeding operation or manure storage facility, does not include
 - (i) expansion, modification or general maintenance of the structure, confined feeding operation or manure storage facility, and
 - (ii) the clearing and levelling of land;
- (d) “expansion”,
 - (i) with respect to a confined feeding operation, means the construction of additional facilities to accommodate more livestock, and
 - (ii) with respect to a manure storage facility or manure collection area, means the construction of additional facilities to store more manure, composting materials or compost.

3 Section 2 is amended

(a) in subsection (1) by striking out “construct or expand” and substituting “commence construction or expansion of”;

(b) by repealing subsection (2) and substituting the following:

(2) Subject to subsection (3), an owner or operator of a confined feeding operation who holds an approval is not required to apply for an amendment to the approval or for another approval when the owner or operator wishes to change the type of livestock within the same category, and as a result, change the number of animals, at the confined feeding operation unless the change will increase the amount of manure produced, on an annual basis, at the confined feeding operation beyond the amount of manure produced by the type of livestock and number of animals allowed by the owner’s or operator’s approval.

(c) subsection (3) is amended

- (i) **by striking out** “the Board” **and substituting** “an approval officer”;
- (ii) **by striking out** “or number” **and substituting** “and number”;
- (d) **by repealing subsection (4) and substituting the following:**
 - (4) An owner or operator of a confined feeding operation who holds an approval is not required to apply for an amendment to the approval or for a new approval if
 - (a) the owner or operator is not reconstructing or modifying a part of the confined feeding operation where manure, composting materials or compost accumulates or is stored and if the reconstruction or modification will not result in an increased capacity of the manure storage facility or the manure collection area of the confined feeding operation, or
 - (b) the owner or operator holds an authorization to commence construction, expansion or modification of the manure storage facility or the manure collection area of the confined feeding operation.

4 Section 3 is amended

- (a) **in subsection (1) by striking out** “construct or expand” **and substituting** “commence construction or expansion of”;
- (b) **by repealing subsection (2) and substituting the following:**
 - (2) Subject to subsection (3), an owner or operator of a confined feeding operation who holds a registration is not required to apply for an amendment to the registration or for another registration when the owner or operator wishes to change the type of livestock within the same category, and as a result, change the number of animals, at the confined feeding operation unless the change will increase the amount of manure produced, on an annual basis, at the confined feeding operation beyond the amount of manure produced by the type of livestock and number of animals allowed by the owner’s or operator’s registration.
- (c) **in subsection (3)**

(i) **by striking out** “the Board” **and substituting** “an approval officer”;

(ii) **by striking out** “or number” **and substituting** “and number”;

(d) **by repealing subsection (4) and substituting the following:**

(4) An owner or operator of a confined feeding operation who holds a registration is not required to apply for an amendment to the registration or for a new registration if

(a) the owner or operator is not reconstructing or modifying a part of the confined feeding operation where manure, composting materials or compost accumulates or is stored and if the reconstruction or modification will not result in an increased capacity of the manure storage facility or the manure collection area of the confined feeding operation, or

(b) the owner or operator holds an authorization to commence construction, expansion or modification of the manure storage facility or the manure collection area of the confined feeding operation.

5 Section 4 is repealed and the following is substituted:

Authorization required

4(1) An authorization is required to commence construction, expansion or modification of a manure storage facility that is not part of a confined feeding operation if the manure storage facility contains or is to contain a total of 500 tonnes or more of manure, composting materials and compost for 7 months or more in any calendar year.

(2) An authorization is required to commence construction, expansion or modification of a manure storage facility or a manure collection area that is part of a confined feeding operation unless the owner or operator of the confined feeding operation holds an approval or a registration authorizing the construction, expansion or modification.

(3) Despite subsections (1) and (2), an owner or operator of a manure storage facility or a confined feeding operation who holds an authorization is not required to apply for an amendment to the authorization or for a new authorization if the owner or operator is not reconstructing or modifying the part of the manure storage facility or the manure collection area where manure, composting

materials or compost accumulates or is stored and if the reconstruction or modification will not result in an increased capacity of the manure storage facility or the manure collection area.

6 The following is added after section 4:

Ancillary structures

4.1(1) An owner or operator of a confined feeding operation who holds an approval or registration

- (a) is not required to apply for an amendment to the approval or registration or for a new approval or registration for construction, reconstruction or modification of an ancillary structure, but
- (b) must provide an approval officer or the Board with notice in writing prior to the commencement of construction, reconstruction or modification of an ancillary structure.

(2) On receipt, by an approval officer or the Board, of a notice under subsection (1)(b), the ancillary structure described in the notice forms part of the confined feeding operation for which the owner or operator holds an approval or registration.

7 Section 5.1 is amended

- (a) **by striking out** “on a confined feeding operation”;
- (b) **by adding** “an approval officer or” **before** “the Board”.

8 Schedule 1 and Schedule 2 are repealed and the following is substituted:
