Subject: RE: Request for Information Letter - Kramer Dairy (RA19106)
Date: October 18, 2019 3:01:00 PM

Hi Reinder,

Further to my voice mail message, I have briefly reviewed the letter prepared by Envirowest Engineering and note that it does not document all of the required information.

As noted in my letter to you dated September 5, 2019, I need to know the depth of the lagoon (earthen liquid manure storage or EMS). The document from your engineer only provides me with an estimated depth.

When I receive the above information from you I will re-review your report and discuss with my co-workers as to how I should proceed.

Thank you,

Jeff Froese
