Good afternoon Laura,

I understand that Brent and Tracey Calvert's was one of the 68 addresses that the NRCB sent courtesy letters to on August 16, 2019. I also understand that the Calverts were not among the 10 people that Inspector David Smejkal referred to as being directly affected in his Grandfathering Determination decision report (see part 4.1 at page 14).

Following your inquiry below, we looked into locating Mr. and Ms. Calvert's e-mail posing questions on September 17, 2019. The CFO2 database shows an entry from September 18, 2019 that states as follows (where "DS" is Inspector David Smejkal):

Received an email from a neighbor (Tracey Calvert) who had some questions. I phoned her back and left a message stating that I'd be happy to answer her questions and asked her to call me back. I reminded her that her deadline to submit an SOC is at the end of today's business hours. - DS

There is no record of Ms. Calvert returning Mr. Smejkal's September 18 phone message.

The inspector did not retain the September 17, 2019 e-mail from Ms. Calvert but does not dispute that he received it. I understand that NRCB's IT consultant may be able to revive it in some form if needed.

In response to your May 11 request for the inspector's materials, I will separately be sending along some records that are relevant to the Board's determinations on the four RFRs that have been filed. The CFO2 database entry reproduced above will be among those records, to assist the Board.

Regards,

Fiona N. Vance

Importance: High

Fiona,

This person was not included on the contact list provided to me by Operations. I assume she was therefore not granted directly affected status by David. However, she said she had made a submission to David and that she lives right across from the operation; I asked her to send her submission to me (below). She also said she hadn't received the grandfathering decision. Please provide any more information on this if you can.

Thanks.

Hello Tracey,

Further to our telephone conversation, I am sending you the request for review form. You need to request the board to review your directly affected status (fifth choice on first page), and then to consider your issues.

The deadline to submit is today at 4:30 pm.

Laura

Comments:

- 1) Manure disposal plan
- 2) water containment plan (is the collection pond next to Blueberry Creek operational) Will it meet approval of Water Resources?
- 3) Is County responsible for all traffic issues in regards to the feedlot?
- 4) What is the actual licensed capacity going to be?

Regards
Brent Calvert
