20,000 Chicken Layer Barn

Regarding the proposed construction of a new Layer Barn near our property, we have one main concern that we want to express:

- 1) Our concern is the added water use by the layer chickens and how it will deteriorate the future quality and quantity of our well water.

I have looked at the Alberta Environment Water Well website and have done a review of all nearby water wells:

| <u>Location</u> | <u>Year</u> | <u>Well ID</u> | <u>Water Well Results</u> |
|-----------------|-------------|----------------|---------------------------|
| 15-24-11-28-W4M | 1999        | 292547         | 2.75 gal.min.             |
| 16-24-11-28-W4M | 1999        | 291346         | Dry Well                  |
| 16-24-11-28-W4M | 1999        | 291345         | Dry Well                  |
| 16-24-11-28-W4M | 1999        | 291344         | Dry Well                  |
| 16-24-11-28-W4M | 1999        | 291347         | Dry Well                  |
| 16-24-11-28-W4M | 1999        | 291349         | Dry Well                  |
| 16-24-11-28-W4M | 1999        | 292548         | Dry Well                  |
| 11-19-11-27-W4M | 2011        | 1770156        | Dry Well                  |
| 14-19-11-27-W4M | 2011        | 1770155        | Dry Well                  |
| 14-19-11-27-W4M | 2016        | 1770254        | Dry Well                  |

We trust that you will address our concerns in your application process.
