E-mail: [REDACTED] My wife and I feel that we would be negatively impacted by this feedlot so close to our home. We feel that it would negatively affect our property value and make it really difficult to resell our property, there would be a lot of bad odors and flies and a substantial amount of animal waste. We also feel that there would be an increase of large equipment and trucks on the roads around us, adding to the noise and pollution. We are also thinking about drilling a waterwell for our home and strongly feel that a concentration of that many cattle could negatively affect ground water in the area. We live directly west of the proposed site and we are against it being approved. Thank you for your consideration Joe Miko and Danielle Miko
