Hello James,

I think it is all there now. I have attached the compilation of everything I have with a few pages I added for you (copies of the mds and manure requirements). The permission to apply letter will not need to go with this package but I need it for the file. If you get a chance please have a quick look and make sure everything is accurate/ fits what we have discussed. Give me a call if there's anything misunderstood or you would like to adjust or add before we go to public notice (my number is 403-381-5822, I'm available on the phone until noon everyday this week).

Once I hear back from you I will start preparing the public notice to get the process moving forward.

Have yourself a great day otherwise,

Joe
