Subject: Expansion of farm
Date: Tuesday, December 1, 2020 11:38:46 AM

While we greatly appreciate this young families ambition it directly does impact our lives. So many days we cannot have our windows open or enjoy our property that we have put time and money into. It's embarrassing when we have company visit and have to explain the foul odour and take refuge in our home. It greatly affects our lake life. Perhaps if they could add some filtration system that would eliminate the majority of the odour then it might be acceptable.

We are not trying to be difficult or wanting to hold this family back. We simply want to enjoy our home and retirement without the strong odour of the barns.

Sincerely

Tim & Roxanne Callaghan
