Hi Arie,

I will make the changes you request to the application.

Subject: Permit Update

Hello Andy,
Hope things are going well with you.

I would like to make some minor changes on the permit application.

1. Currently the catch basin size is listed at 31m long, 21m wide, and 1.8m deep. Could we change that to 36m long?
 - a. This would help with manure management
2. Could we add in the permit application that I would like to decommission a concrete lagoon that currently sits in between Barn 1 and Lagoon 1? Piping has already been diverted around this lagoon and it is not my intent to use it for manure storage any longer.

Thanks
Arie
