Dear Kelsey,

This is Janet Sulapas my late husband is Bryce McNab and Bernadette McNab is my mother in-law. She received a letter of notification from NRCB dated April 11, 2024. Just to let you know that I Echo all the concerns as my mother in law outlined in her letter to NRCB. But it doesn't mean that I don't support agriculture. Growing up in the countryside back in my country, I can say that I had witnessed and experienced some of the results of this matter. My number 1 concerns is the negative effects to our air quality that could make it worse for our children especially with allergies and poor immune system to have and enjoy living in this environment. But again, I support agriculture. Thank you very much.

Sincerely,  
Janet
