

Total permitted animal capacity from all permits for this site:
9,000 beef finishers

In consideration of Decision Summary RA24030, Approval RA24030 is issued to:

Name: Ference Land and Cattle Corp. (the “permit holder”)
Address: Box 707 Kirriemuir, AB T0C 1R0
Contact person: Craig Ference

Permitted construction (based on the submitted site plan):

- Livestock pens 61, 71, 81 and 91 – 238 m x 62 m (total)
- South runoff control catch basin expansion – 61 m x 40 m x 4 m (total dimensions)
- North runoff control catch basin expansion – 90 m x 40 m x 4 m (total dimensions)
- Livestock pens 28, 29, 30 – 360 m x 65 m (total)
- Livestock pens 12, 13, 20 – 360 m x 65 m (total)
- Change the previously permitted north livestock pen area dimensions to 360 m x 137 m (total dimensions (2 rows)) changed from 335 m x 137 m

The permit holder shall comply with the requirements of the *Agricultural Operation Practices Act* (AOPA) and the regulations passed pursuant to that Act.

The permit holder shall adhere to the descriptions, the site plan, building plans, engineering reports and other attached documents included with filed Application RA24030 and Approval RA24001.

The permit holder shall contact the NRCB at least 10 working days in advance of the desired inspection date to schedule the inspection in conditions 2, 4, 6, 8, 10, 11.

The permit holder is responsible for all costs associated with sampling, testing, recording, and reporting requirements (this includes post construction reports).

Construction conditions

North catch basin expansion

1. The permit holder shall complete construction of the manure collection and storage portions of the north runoff control catch basin prior to December 1, 2025. Upon request, this deadline may be extended by the NRCB in writing.
2. The permit holder shall not allow manure impacted runoff in the expanded north runoff control catch basin, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

South catch basin expansion

3. The permit holder shall complete construction of the manure collection and storage portions of the south runoff control catch basin prior to December 1, 2025. Upon request, this deadline may be extended by the NRCB in writing.
4. The permit holder shall not allow manure impacted runoff in the expanded south runoff control catch basin, until the facility has been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Livestock pens 61, 71, 81, and 91

5. The permit holder shall complete construction of the manure collection and storage portions of livestock pens 61, 71, 81 and 91 prior to December 1, 2025. Upon request, this deadline may be extended by the NRCB in writing.
6. The permit holder shall not allow livestock or place manure in livestock pens 61, 71, 81 or 91 until the facilities have been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Livestock pens 28, 29, and 30

7. The permit holder shall complete construction of the manure collection and storage portions of livestock pens 28, 29, and 30 prior to December 1, 2025. Upon request, this deadline may be extended by the NRCB in writing.
8. The permit holder shall not allow livestock or place manure in livestock pens 28, 29, or 30 until the facilities have been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Livestock pens 12, 13, and 20

9. The permit holder shall complete construction of the manure collection and storage portions of livestock pens 12, 13, and 20 prior to December 1, 2025. Upon request, this deadline may be extended by the NRCB in writing.
10. The permit holder shall not allow livestock or place manure in livestock pens 12, 13, or 20 until the facilities have been inspected by NRCB personnel and confirmed by them, in writing, to have been constructed in accordance with the terms and conditions of this permit.

Construction conditions (brought forward from Approval RA24001 not previously met)

Livestock pens 8 and 9

11. The permit holder shall not allow livestock or place manure in livestock pens 8 and 9 until the facilities have been inspected by NRCB personnel and confirmed by them, in

writing, to have been constructed in accordance with the terms and conditions of this permit.

12. The permit holder shall complete construction of the manure collection and storage portions of livestock pens 8 and 9 prior to November 30, 2025. Upon request, this deadline may be extended by the NRCB in writing.

Operating conditions

13. The permit holder shall ensure the pens located southeast of the feedlot (Pen 10 and 11, see TD RA24030 pgs. 6 and 8) are used for cow-calf or other non-CFO purposes.

This approval becomes effective immediately. The approval conditions will remain in effect unless amended in writing by the NRCB.

Approval RA24001 is hereby superseded, and its content consolidated into this Approval RA24030, unless Approval RA24030 is held invalid following a review and decision by the NRCB's Board members or by a court, in which case Approval RA24001 will remain in effect.

September 6, 2024
