DEAR MS. FRIEND,

RE: Registration as a Participant in the SR1 Pre-Hearing

I am writing this letter to formally register as a participant in the 2020 pre-hearing on the SR1 Springbank Flood mitigation project.

I would like the following issues discussed...

1. A discussion of 2013 flood on impacted communities (including financial, mental health and environmental/health consequences)
2. The continuing risk and impacts to downstream communities without mitigation
3. My opinion on why the Springbank (SR1) option is technically the best option vs. an in-stream solution (vs. proposed Maclean creek option or other options)
4. This impact of further delays or a negative SR1 decision on my community, family, health, and the environment.
5. The need to proceed with the most advanced and shovel-ready project

Thank-you for reviewing my application to participate.

Sincerely,

J. Kyle Keith, P.Eng
Elbow Park (Calgary) Resident
