To: Parties to RFR on Enforcement Order (EO) No. 21-01

**Subject: Board Decision to Suspend EO No. 21-01**

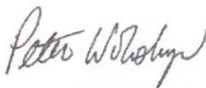

The Board (Peter Woloshyn, Sandi Roberts, Page Stuart) met to deliberate on RFR No. 21-01 on October 14, 2021.

The Board has decided to suspend EO 21-01 until NRCB Field Services has issued its formal grandfathering determination on the Mossleigh feedlot (Vulcan County municipal development permit 98-012). Following release of the grandfathering decision, John Schooten and Sons Custom Feedyard Ltd. (JS&S) may either rescind or modify its request for Board review of EO No. 21-01.

For clarity, suspension of EO No. 21-01 means JS&S are not required to meet any of the conditions of the EO at this time, including:

- the requirement to submit inventory reports for any of its feedlots
- the requirement to declare, by October 15, 2021, whether JS&S disputes assumed permitted capacity numbers as stated in the EO at 1(a)(iii) or (iv).

Given the extremely short timelines between the RFR deadline and the October 15, 2021 EO conditions, the Board issues this letter without reasons. Reasons and further instructions to follow.

Peter Woloshyn,  
Board Chair
