The NRCB conducted an investigation to determine the capacity of a confined feeding operation that was in place on January 1, 2002 and that was constructed pursuant to a development permit issued before January 1, 2002. In consideration of a decision report dated October 3, 2024, the NRCB determined that the CFO held a deemed approval under section 18.1 of AOPA, and that the deemed permit was still valid as of October 3, 2024. See grandfathering decision report PB24004 on the NRCB website.
