Part 1 – General Information & Disclosure

Describe what is being proposed, including changes to facilities, changes to animal numbers, or changes to types of livestock, e.g., beef, dairy, hog, poultry, etc.

We have installed RCC pen flooring in 2 of the rows of pens and intend to do the remainder of the feeding pens in the coming years. The RCC pen surface enables us to have a higher stocking density which helps to finance the cost of the RCC pens while providing us with a better manure product that can sold to neighboring farms as fertilizer. We want to increase our livestock number to 5000 beef finishers within the existing feedlot structure/footprint without constructing any new pens.

Livestock Numbers: (include all permitted and proposed livestock). Note: If total livestock numbers increase in your Part 2 application, a new Part 1 application must be submitted which may result in a loss of priority for minimum distance separation (MDS).

Livestock category and type (Available in the Schedule 2 of the Part 2 Matters Regulation)	Permitted livestock numbers	Proposed increase or decrease in number (if applicable)	Total
Beef Finishers	3000	2000	5000
