Part 1 – General Information & Disclosure

Describe what is being proposed, including changes to facilities, changes to animal numbers, or changes to types of livestock, e.g., beef, dairy, hog, poultry, etc.

The demand for high-quality dairy products is continually increasing, creating a significant opportunity for Jumbo Valley Colony to expand its operations with a new dairy milking facility. The proposed facility will accommodate 400 milking cows plus an additional 75 dry cows, a 50 stall rotary milking platform, and a manure handling facility. The goal is to improve milk production efficiency, meet the increasing demand for dairy products, and ensure sustainability while enhancing the welfare of the cows and the environment.

Livestock Numbers: (include all permitted and proposed livestock). Note: If total livestock numbers increase in your Part 2 application, a new Part 1 application must be submitted which may result in a loss of priority for minimum distance separation (MDS).

Livestock category and type (Available in the Schedule 2 of the Part 2 Matters Regulation)	Permitted livestock numbers	Proposed increase or decrease in number (if applicable)	Total
Dairy	300	175	475

Jumbo Valley Colony
 also has:
 42,000 chicken broilers
 36,000 turkey hens
 600 chicken layers
 700 ducks
 300 geese
